

Amendments to the Claims

This listing of claims replaces prior versions:

Claim 1 (currently amended): A lamp device suitable for eliminating a blind spot in an automotive vehicle, comprising:

a blind spot-eliminating lamp member received, at a predetermined location, in a side panel of a vehicle body, the lamp member having an illumination lamp oriented in one direction and a turn signal lamp serving as a flasher oriented in the opposite direction;

a drive member for pivoting the lamp member by a predetermined angle; and

a control member having a lamp control part for controlling the lamp member and a drive control part for controlling the drive member.

Claim 2 (currently amended): The lamp device as set forth in claim 1, wherein ~~the lamp member comprises an~~ the illumination lamp ~~which~~ is controlled by a signal generated in the lamp control part of the control member, and a reflection mirror which is mounted to be positioned behind the illumination lamp.

Claim 3 (canceled)

Claim 4 (original): The lamp device as set forth in claim 1, wherein the lamp control part is actuated in a manner interlocked with operation of the drive member.

Claim 5 (original): The lamp device as set forth in claim 1, wherein the drive control part comprises a driving motor for pivoting the lamp member by the predetermined angle, and a motor control portion for controlling the driving motor.
